

# Credit Control

## Credit Control

Our cutting-edge Credit Control platform, where intelligent automation meets seamless efficiency. Our revolutionary system transforms credit control processes with its comprehensive range of features.

### Cutting Edge Technology

**Automated Checks and Delinquency Extraction:** Our system conducts automated checks and effortlessly extracts accounts in arrears, identifying non-payers with precision and efficiency.

**Automated Communication Generation:** Say goodbye to manual correspondence. Our platform automates the generation of letters, texts, and emails, ensuring timely and consistent communication with debtors.

**Credit Control Diary System:** Stay organised with our credit control diary system, providing a centralized hub for reviewing tasks, setting review dates and managing workflows for arrears letters.

**Flexible Parameter Configuration:** Customise credit control parameters to suit your unique requirements. Set your own rules, severity levels, and actions without conforming to standard norms.

**Tailored Workflows:** Create personalised workflows to streamline processes and optimise efficiency. Empower your team to work smarter, not harder.

**Dynamic Privacy Settings:** Ensure data privacy and efficient workload distribution with dynamic privacy settings. Segment accounts based on loan balances, directing them to appropriate team members for handling.

**Segregation of Duties:** Maintain transparency and accountability with clear segregation of duties within the system. Allocate responsibilities appropriately to prevent conflicts of interest.

**Advanced Reporting and Analysis:** Harness the power of intelligent reporting and analysis tools to gain valuable insights into credit control performance. Conduct A/B testing, analyse effectiveness, and optimize strategies for maximum results.

**Visual Arrears Management:** Utilise color-coded indicators for arrears and charge-offs, providing visual cues for efficient management and decision-making.

## More Control Than Ever

Transform your financial management processes and drive sustainable growth with unparalleled automation and efficiency.
